CANADA

The Infrastructure Renewal Magazine

MARCH/APRIL 2011

FEATURES

8 Class Is in Session A group of engineering, construction, and public works professionals prepare Canada's first-ever report card on the state of municipal infrastructure.
By Mira Shenker

26 Northern Exposure Canada's government begins to fit its "true North" into national plans for economic development. But Southern strategies may not work in the North.
By Mia Bennett

POWER AND EFFICIENCY

17 The Energy Cup A competitive spirit leads to better habits and energy savings.
By Michael Driedger

20 Cities 2.0 From asset management to info management: how urban spaces will run on data.
By Roy Pratt

22 Plug and Play What cities need before they are ready for the electric car.
By Lynn Moore

DEPARTMENTS

10 ReThink An exclusive industry roundtable defines "smart and connected" and tackles the challenge of how to integrate new technologies into old infrastructure.

24 ReMediate Frameworks and strategies—how effective are they at helping cities redevelop old service stations?
By Mira Shenker

36 ReImagine Calgary's Royal Canadian Pacific Pavilion as an example of smart adaptive reuse.

37 ReLocate Jobs gained and lost in the industry.

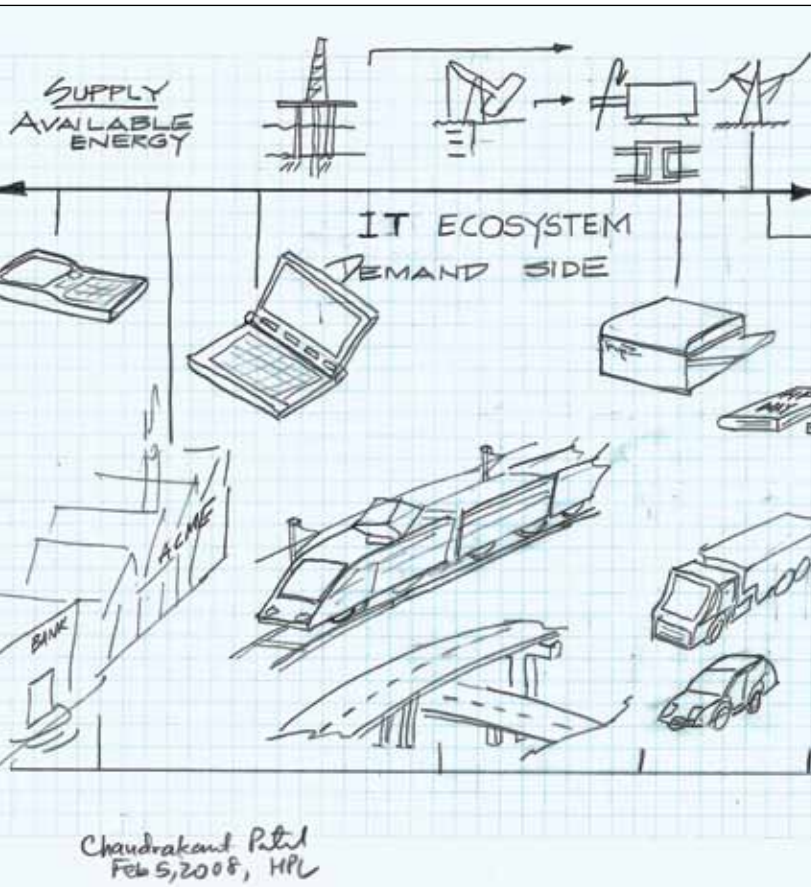

38 ReEvents The Global Leadership Forum, Canada's first-ever National Infrastructure Summit, and more.

42 Closing Shot Citizen Antarctica.
By Todd Latham

FRONT

4 Editor's Note Cities need to avoid the last-minute scramble to design and deliver infrastructure projects.
By Mira Shenker
