SMART DENSITY

- 10 Room to Grow** As we're living in a different time than we did a decade ago, *Saul Chernos* looks at how planning for population growth requires smart densification and a clear vision.
- 14 Under Their Own Power** District energy systems provide municipalities an opportunity to build self-reliant, resilient communities. *By Brad Bradford*
- 18 Hand in Hand** There is a symbiotic relationship between land use and transit plans. *Michael Roschlau* explains how regions should develop compact communities that transit can serve efficiently.
- 24 Too Hot for Comfort** Research shows how green infrastructure can help mitigate the urban heat island effect. *By Steven W. Peck*
- 26 The Resilience Imperative** With extreme weather as the new normal, climate change means we must rethink how we plan, build, and manage Canada's infrastructure. *By Adam Auer*

ASSET MANAGEMENT

- 34 A Guide to Change** *Ian Woodbury* explains how proper asset management is an exercise in alignment.
- 36 Pothole Nation** Extreme weather has made it difficult to prevent and repair sinkholes. Learn how municipalities are adapting. *By Clark Kingsbury*

DEPARTMENTS

- 4 Editor's Note** *André Voshart* discusses the importance of planning for urban intensification.
- 5 Front** How communication is key to smart cities, and resilience planning as our legacy.
- 8 Top 100 Projects** Ottawa's Confederation Line drilling resumes after sinkhole forms, Muskrat Falls secures financing, and BC Hydro advances two key energy projects.
- 22 Panorama** Winnipeg's Canadian Museum for Human Rights has taken shape on the city's horizon.
- 30 ReFinance** *Antony Upward* understands how a project's unintended consequences can boost long-term infrastructure effectiveness and profitability. *Stephane Larocque* then outlines the sustainable return-on-investment process.
- 38 Re: The Law** How proper preparation for a wind project's site selection, transportation, and maintenance helps reduce potential liabilities. *By Louis Vatrt*
- 40 People & Events** Appointments, departures, celebrations, GLOBE 2014, ROMA/OGRA, and RCCAO.
- 42 Closing Shot** *Todd Latham* thinks Canadians should be more informed about water.
