RISK MANAGEMENT

- 28 Risky Business** How incentivizing the right people can reduce project risks. *By Marcus Weeks*
- 32 One Year Out** Managing the risk behind the 'biggest ever' Pan Am Games headed to Toronto in 2015. *By Treena Hein*

ENERGY & ASSET MANAGEMENT

- 34 On the Road to Rehabilitation** Looking to improve Canada's aging transportation infrastructure with non-destructive condition assessments. *By Kevin Vine*
- 38 Infrastructure & Our Health** *Steven Peck* explains how research shows humans need natural elements and environments to be healthy.
- 40 Supply and Demand** Emerging energy-storage technologies offer grid stabilization and alleviate demands on infrastructure. *By Jennifer Stoneburgh*

DEPARTMENTS

- 4 Editor's Note** *André Voshart* address the confusing Building Canada Fund.
- 5 Front** Looking past our borders for better asset management, and tackling climate change with green bonds.
- 8 Top 100 Projects** Costly delays slow Toronto's Union Station overhaul, updates on the New International Trade Crossing, the Site C review, and Winnipeg's BRT P3 application leads to call for referendum.
- 24 Panorama** The Netherlands builds the world's first suspended bicycle-path roundabout.
- 42 People & Events** Appointments, risk management seminar, QUEST, FCM, and CNAM.
- 46 Closing Shot** *Todd Latham* on the silly things said by citizens and elected officials.
