ASSET MANAGEMENT

- 10 Skilling Up** Training in asset management helps municipalities fight complacency and prioritize their investments. *By Eve Krakow*
- 13 Eco-Strategy** Town of Gibsons looks to integrate natural capital into asset management. *By Emanuel Machado*
- 14 Get the Full Picture** What's new in the world of asset management planning? *By Lyn Townsend*
- 16 The Cognitive City** Imagine a city that helps you live in it. It's not that far away. *By Jean-François Barsoum*
- 18 In a SNAP** A neighbourhood-based approach to integrated infrastructure renewal. *By Cathrin Winkelmann*

FINANCING & RISK MANAGEMENT

- 24 A Roadmap to On Time, On Budget** Better mega-project planning involves getting to the root of persistent cost overruns and fixing the problem. *By Matti Siemiatycki*
- 28 Respect the Unexpected** How firms can mitigate their exposures to delays and cost overruns. *By Carl Spensieri*
- 30 Ready or Not** No type of energy production is free of risk—and renewable projects face potential pollution liabilities as well. *By Sarah Roberts*

BROADBAND & TRANSPORTATION

- 32 On the Data Highway** Fibre-optic cable projects in rural and remote communities are slow to come—but are critical in supporting economic growth. *By Tristan Simpson*
- 34 Canada's Second Rail Renaissance** With so many competing transit priorities, the real achievement will be to develop a national system that makes investment decisions based on need. *By David Caplan*

DEPARTMENTS

- 4 Editor's Note** *André Voshart* examines the federal government's infrastructure promises.
- 5 Front** Achieving resilience, and the infrastructure highlights from Budget 2016.
- 22 Panorama** The Fanshawe Dam and Reservoir assists in flood control efforts in London, Ontario.
- 36 Top100 Projects** View photos from the Top100 Projects Key Players & Owners Dinner on February 25.
- 39 People & Events** Appointments, departures, company news, 2nd Annual Aviation Summit, and discussion on Canada's Infrastructure Imperative.
- 42 Closing Shot** Governments need to ensure every dollar is wisely spent, so engineering oversight is key over the next 20 years.
